COMPLETELY TURNED

RUSSIAN RIGHT FLANK DRIVEN
BACK BY THE JAPS UNDER
GENERAL OKU.

CRUCIAL MOMENT AT HAND
COMMANDER OF RUSSIAN FORCES
IS NOW IN A MOST DIFFI-
CULT POSITION.

Reports from Japanese sources claim that the Russian right flank southwest to south of Mukden, and contiguous to the railway, has been completely turned by the Japanese forces under the immediate command of General Oku.

To the eastward General Kuroki is directing a vigorous attack with heavy artillery against strongly fortified Russian positions. General Kuropatkin is said to be concentrating a strong force in front of Generals Kuroki and Nogi. It still seems probable that General Kuropatkin will find it difficult to retire to Tie pass, which appears to be a necessary move. St. Petersburg has word that affairs lately have taken a turn for the better for Russian arms and the tactics of Field Marshal Oyama in sacrificing many of his soldiers in an attack on impregnable positions in the center as mere diversion while the real blows were being struck on the flanks is criticised by Russian military officers. The critics also point to the attenuation of the Japanese line as an element of peril for Oyama and of hope for Kuropatkin. The losses on both sides have been heavy, but even estimates are lacking.

RINGED WITH STEEL

MARSHAL OYAMA DRAWS HIS
DEADLY CORDON OF TROOPS
AROUND RUSSIANS.

Tokio, March 6.—Field Marshal Oyama is completing his great drives around both flanks of the Russian army. His front is now a huge bow, the base on the Shakhe river, the right arm reaching a point east of Fushun and the left arm extending to a point well toward Mukden. He is steadily tightening the great cordon of men and steel. General Kuropatkin is striving desperately to check the Japanese advances, contesting the flank encroachments and hammering the Japanese center. The Japanese are making heavy gains of ground west of the railway and have captured great quantities of stores and other spoils. There has already been bloody fighting and heavy losses and this will be vastly increased when the masses of infantry meet.

Field Marshal Oyama, reporting on March 4, says:

"A few days ago our force in the Hsienchuan direction pressed the enemy into his position at Tita, which is fifteen miles southeast of Fushun, and Manchuntan, fifteen miles south of Fushun. The engagement continues in the Shakhe direction.

"The night of March 3 the enemy made four determined attacks against our positions at Housuntupotzu and Tangshittun. All were entirely repulsed.

"In the district east of the railway the enemy's frequent small attacks were repulsed.

Continuing Fierce Attacks.

"In the district west of the railway our force is continuing fierce attacks and has occupied the district of Wu-cheng, five miles west of Shakhe village, and Laishompa, thirty miles northwest of Shakhe village, and Laishompa, three miles northwest of Wucheng, and Shuhopao, the terminus of the new railway constructed by the Russians.

"The force on the right of the Hun river is dislodging the enemy northeast of Siaope, which is between the Hun and Liao rivers, and has advanced north. This force carried the enemy's defense line between Chantan and Shufangtai, and pursued the enemy fiercely. The line now is between Woachiao, fifteen miles southwest of Mukden, and Taitse, thirteen miles west of Mukden, and Lamupe, four miles north of Taitse.

"During a previous engagement the enemy's casualties were heavy. The spoils we captured were great. No time to investigate. We captured large quantities of provisions at Wanchang-pao and captured a clothing depot at Tantia."

Estimates of General Kuropatkin's force between Shakhe and Tie pass prepared here give a total of slightly more than 400,000, composed of 335,000 infantry, 33,000 cavalry and 35,000

artillery with 1,504 guns. This estimate does not include troops at Vladivostok and other garrisons, railway guards and other employees. The grand total east of Lake Baikal is estimated at 700,000 men.

JAPS CLOSE TO MUKDEN.

Kuropatkin Reports on Advance of the Island Empire's Army.

St. Petersburg, March 6.—The advanced guard of the Japanese Left army was within five and a half miles of Mukden station Saturday, according to a telegram from General Kuropatkin. Other Japanese had captured Cuchudia and Lanshampa the same day, while their attacks on Putiloff hill and thirteen fierce assaults on Kandolewan were repulsed.

ARTILLERY DUEL RAGING.

Japanese Shells Exploding Within Three Miles of Mukden.

Mukden, March 6.—An artillery duel has been raging since morning to the westward of Mukden and the Japanese shells are exploding within three miles of the imperial tombs. The line of the Japanese advanced guards extends about seven miles parallel with the railway.

VETERANS IN ACTION

HEROES WHO TOOK PORT AR-
THUR NOW MENACE STRONG-
HOLD OF MUKDEN.

Mukden, March 6.—The rumble of carts in the streets of Mukden is drowned by the roar of battle, which is raging northwest, west and southwest of the city, a few miles away between General Nogi's Port Arthur veterans and the hastily assembled army interposed by General Kuropatkin to defend the city and railroads. The stroke came like lightning out of a clear sky. It is reported that the situation has somewhat improved, but it is still extremely critical. It is reported that the Japanese have been thrown back in the district of Lunfan-shan and are retiring along the Simintin road; but heavy fighting is continuing there. The Japanese vanguard posts are about six miles west of Mukden, where the bursting of shrapnel is plainly visible. A fight also is raging at Suchidapu and Lan-shampa, which on Saturday were captured by the Japanese after a terrific combat, the villages several times changing hands.

The Japanese on Friday advanced on the Russian position at Shakhe village but were beaten off. Twice they attacked Putiloff, but both attacks were repulsed. At Oubenepusa a Japanese guard of over twenty battalions made thirteen attacks the night of March 3 and the morning of March 4, storming the redoubts most furiously. All ground in front of the redoubts was fairly strewn with heaps of Japanese corpses.

Artillery in Heavy Duel.

The Japanese and Russian artillery are engaged in the heaviest duel of the war. Russian mortars are fired at the Shakhe bridge and Japanese eleven-inch guns are in full play, but the Russian fortifications, on which the Russians had been working all winter, offer a fairly secure protection for their defenders.

There is little news of General Kuropatkin's operations on the extreme east of the line. The Russians are holding their ground and even advancing, but it is reported that a Japanese cavalry division with twelve quick fire guns is sweeping far to the eastward on a rapid turning movement.

The carnage at the center and on both flanks has been enormous. The Japanese at many places simply threw away their lives, beating against the Russians' powerful fortifications in attacks which, in the center, apparently were intended chiefly as a demonstration to cover the driving home of General Nogi's blow. It is believed now that the operation to the eastward was in part in the nature of a feint, with the design to draw reinforcements thither. If this was the design it was successful, General Kuropatkin having sent the first corps to the assistance of General Linevitch.

As the result of the week's operations the Russian right is bent sharply backward instead of paralleling the Shakhe river, and now runs northwest and southeast, passing eight miles from Mukden, covering and crossing the Simintin road.

The Port Arthur veterans advanced to the attack shouting in Russian: "Out of the way, for us; we are from Port Arthur." They offered their lives with the same fanatical bravery and were as unshaken by heavy losses as at the siege of Port Arthur.

Woman Probably Murdered.

Chicago, March 6.—The body of the woman found last Friday in Lake Michigan at the foot of Forty-ninth street was identified Sunday as that of Mrs. Eva Belmont, whose home is said to have been in Milwaukee. The police believe the woman was murdered and her body thrown into the lake.

Estimates of General Kuropatkin's force between Shakhe and Tie pass prepared here give a total of slightly more than 400,000, composed of 335,000 infantry, 33,000 cavalry and 35,000

RUSSIAN ARMY'S FATE

DEPENDS ON RESULT OF FIGHT-
ING ALMOST IN THE OUT-
SKIRTS OF MUKDEN.

BOTH SIDES LOSE HEAVILY

MARSHAL OYAMA HURLS COUNT-
LESS HORDES OF HEROES
AGAINST THE SLAVS.

St. Petersburg, March 6.—The fate of General Kuropatkin and his army now hangs in the balance, depending on the result of the fighting almost in the outskirts of Mukden. According to latest reports the fighting went well for the Russians, who beat back the wave that threatened to roll over Mukden as it had over the fortifications of Port Arthur; but nothing is known as to what is going on beyond the line of breakers, whether part of General Nogi's force is in full career for Tie pass or whether the Japanese have staked all in a cast against Mukden. The immensity of the peril on the west wing has withdrawn attention from the operations on the center and left, where the fighting has been extremely heavy, and on the left especially where the Japanese gains are sufficiently great to cause apprehension to themselves.

Military critics here point out that the Japanese have put themselves in a critical position by the extreme extension of their lines, laying themselves open as they did at Liaoyang to the possibility of a most effective counter stroke and probable defeat if General Kuropatkin should be able to launch a column against a weak link in the chain.

In other respects the situation also resembles that at Liaoyang, the Japanese making a costly "demonstration," to hold the Russians in their fortifications on the center and throwing away the lives of thousands in order to give the flanking force an opportunity to administer a telling blow.

Awful Carnage of Battle.

A feature of all accounts of the fighting reaching St. Petersburg is the emphasis laid on the awful carnage. There is reference after reference to dead piled high on the ground over which an attack was delivered, strewing breastworks, almost hiding abatis from sight and even being used by the Japanese to construct hasty entrenchments. The Russian losses on both flanks are conceded to be enormous, but it is claimed that defenders of the center suffered comparatively little by the Japanese bombardment and beating off the Japanese attack.

The attacks delivered by General Nogi's soldiers were marvelous in view of the forced marches which they made for six days, recalling the records of Stonewall Jackson's "Foot cavalry."

gorod hills, to which the Russians are still firmly clinging.

The Russian left also has been so sharply repulsed that a correspondent compares the whole position to the letter C. The Japanese possibly are pushing northward at tangents with both flanks.

The action of the Japanese has made successful retreat far more difficult than that at Liaoyang, where but one flank was rolled back.

DISTRIBUTIVE TRADE EXPANDS.

Springlike Weather Has a Decidedly Beneficial Effect.

New York, March 4.—Bradstreet's weekly review of trade says more springlike weather has induced expansion in distributive trade at nearly all centers, relatively best reports coming from the Central Western markets, where the number of buyers are largely increased. Dry goods, shoes, hats, clothing and millinery have moved more freely and farm implements, lumber and building material have been in great demand. Iron and steel, as heretofore, hold the center of the stage both as regards demand and strength of prices. Finished products of the latter responding to insistent demand in a higher range of values for many products, which, however, have not gained proportionately to the advance in the cruder forms. Cotton continues draggy and there is practical unanimity in the reports that payments have as yet not shaken off the lethargy of winter. Money is easy, despite active stock speculation, and prediction of high rates to come later in the present season. The usual measures of speculative and distributive trade volume all point to marked expansion over a year ago. February bank clearings have never been exceeded in that month.

the Cure.

Don't be satisfied with relief; brief freedom from backache. Reach the root of the trouble. Cure the cause and backache disappears for good. It can be done. Doan's Kidney Pills make lasting cures. Experiences of Brainerd people prove this. Here's one Brainerd case of it:

Mrs. S. Brain, of 610 S. 10th St., Brainerd, Minn., says: "I could not otherwise than endorse Doan's Kidney Pills, and time and again I have recommended them to persons suffering from kidney trouble. I learned the value of this remedy through experience. When I first got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and the kidney secretions were irregular and distressing. From both these causes my rest was broken at night and in the morning I was usually languid and all tired out. Doan's Kidney Pills made a great change in my condition and after continuing the treatment I was so vastly improved that I felt warranted in recommending this remedy through the local papers. I have never changed my mind about Doan's Kidney Pills and have also found that Doan's Ointment is unequalled for itching and bleeding hemorrhoids. Both these preparations should be known to every sufferer."

FOR COUNTY OF CROW WING

Reduction on Assessment of Brainerd Lumber Company Makes Some Difference

County Auditor Mahlum is busy these days working on the regular February settlement, which will include a statement of the taxes collected and its disbursement to the various funds of Crow Wing county.

From what work he has already done he is able to state that the amount of taxes collected throughout the county up to date will be less by some \$3,000 than was collected at this time last year. One reason for this is thought to be on account of the reduction of something like \$4,000 made in the assessment of the Brainerd Lumber company.

The personal property taxes are fully as well paid up at this time as they were last year.

The Cass County Pioneer says that last Monday night Mike Deloney, a half breed Indian well known in this city and who formerly lived here, shot a man by the name of Bradley at Ball Club, the result of a saloon row. Deloney got the worse of it in the rough and tumble after which he procured a shot gun, returned to the thurst joint and shot through the window twice at Bradley, the fine shot with which the gun was loaded striking the man in the face sideways penetrating his nose and eyes. The injured man will live but will be blind. Deloney is under arrest.

DISTRIBUTIVE TRADE EXPANDS.

Springlike Weather Has a Decidedly Beneficial Effect.

New York, March 4.—Bradstreet's weekly review of trade says more springlike weather has induced expansion in distributive trade at nearly all centers, relatively best reports coming from the Central Western markets, where the number of buyers are largely increased. Dry goods, shoes, hats, clothing and millinery have moved more freely and farm implements, lumber and building material have been in great demand. Iron and steel, as heretofore, hold the center of the stage both as regards demand and strength of prices. Finished products of the latter responding to insistent demand in a higher range of values for many products, which, however, have not gained proportionately to the advance in the cruder forms. Cotton continues draggy and there is practical unanimity in the reports that payments have as yet not shaken off the lethargy of winter. Money is easy, despite active stock speculation, and prediction of high rates to come later in the present season. The usual measures of speculative and distributive trade volume all point to marked expansion over a year ago. February bank clearings have never been exceeded in that month.

FOUR MEN INSTANTLY KILLED.

SIX OTHERS BADLY INJURED BY DYNAMITE EXPLOSION.

Louisville, Ky., March 4.—At the railway camp of A. Caligan, a Chesapeake and Ohio contractor, at the mouth of Greasy creek, ten miles south of here, four men were instantly killed, two fatally and four dangerously injured by exploding dynamite. The men were heating dynamite in powder cans when the explosion occurred.

The dead are Will Van Hope, foreman; Rans Adkins, Anderson Robinson and Will McGuire.

FOR COUNTY OF CROW WING

Reduction on Assessment of Brainerd Lumber Company Makes Some Difference

County Auditor Mahlum is busy these days working on the regular February settlement, which will include a statement of the taxes collected and its disbursement to the various funds of Crow Wing county.

From what work he has already done he is able to state that the amount of taxes collected throughout the county up to date will be less by some \$3,000 than was collected at this time last year. One reason for this is thought to be on account of the reduction of something like \$4,000 made in the assessment of the Brainerd Lumber company.

The personal property taxes are fully as well paid up at this time as they were last year.

ALL HONOR TO IRISH PATRIOT

Local Division, A. O. H., Pays Tribute to Robert Emmett, the Irish Statesman

SOME ELOQUENT ADDRESSES

Columbian Hall was crowded on Event of Celebration of Emmett Anniversary

To the student of historic research no better opportunity could be offered to learn something of the life of one of the greatest characters in the history of Ireland and her great struggle for freedom than on an event like that of Saturday night when some three hundred patriotic Irish folk gathered in Columbian hall to do honor to Robert Emmett, statesman, patriot and martyr, the day being the anniversary of the birth of this conspicuous figure in the history of Ireland.

Under the auspices of Division No. 1, A. O. H., an excellent program had been prepared in memory of Emmett and especially enthusiastically received were the addresses given during the evening by President James J. Nolan, Mayor O'Brien, Rev. D. W. Lynch, Editor Coughlan, of Perham and J. J. Regan, state president of the A. O. H. The address given by the latter was especially enjoyed, containing as it did some of the minutest facts relative to the life of Robert Emmett and the status of the struggle of suffering Ireland at the period when this young man devoted every energy and finally gave up his life blood for the sake of his country. The speaker waxed eloquent under the fire of patriotism which aroused everyone present to a sense of duty toward a suffering people.

President Nolan, of the local division, presided over the deliberations of the evening, and paid a glowing tribute in his opening remarks to the man whose memory was being commemorated.

The first musical number on the program was a song by Miss Kathleen Graham, "Katie from Dublin," which she sang with fervor and feeling. She was given a hearty encore. Thos. Cawley, Jr., was heard in a violin solo, "An Irish Rhapsody" and he was also recalled for another number. Mrs. D. M. Clark recited in a very able manner, "The Dawn on the Hills of Ireland."

Mayor O'Brien was called upon and made a few remarks in his usual unique manner. He thought the order of Hibernians a worthy institution and dwelt on the importance of all the members to live up to its teachings, for in so doing he claimed all men would become better citizens. He also paid a tribute to the ladies' auxiliary. The Hibernian order, he claimed, had done more for the Irish people than any other in the United States.

An especially beautiful tribute paid to Robert Emmett was the one by Rev. D. W. Lynch, the beloved pastor of St. Francis' church. He argued that it was but just and meet that the Irish race should pay tribute to a man who laid down his life for liberty. By their presence at such a gathering the people showed that they appreciated the sacrifice made, and although Ireland claimed the proud distinction of being the birthplace of this great statesman his memory is revered not alone by the people of Ireland but by the whole world, by men everywhere who love liberty and the pursuit of happiness.

Joseph Murphy added to the enthusiasm and patriotic spirit of the occasion by singing, "Come Back to Erin" and he was obliged to respond to an encore.

Editor Coughlan, of Perham, though not down on the program, was called upon for a few remarks, which were well received. He said that he did not claim to be a public speaker but anyone with a particle of Irish blood in his veins could not fail to respond to a call for a few remarks on a theme which is near and dear to the hearts of all his countrymen.

P. A. Egan recited two patriotic selections and was given vociferous applause.

Prof. William Graham and Z. E. Wood gave a cornet duet, "A Pretty Maid Milking Her Cow" and they were heard to good advantage.

President J. J. Regan, of the state organization was then called upon, and his

effort was one of the best ever heard in this city. Full of enthusiasm, and being well equipped with a thorough knowledge of his subject, he gave an address which stirred those present with sympathy. He stated that it was but just and right for any man to love his fatherland, and the men who are interested in the welfare of their native land are classed among the best citizens of this great and glorious liberty loving country, the United States of America.

The speaker dwelt on the life of the young man, Robert Emmett, his career in Ireland during the great crusade for liberty, his family ties and relations, which were among the most pathetic sentiments expressed, and his ultimate sentence and execution.

The program closed with a song, "Margery," by the young ladies' sextette.

The hall had been appropriately decorated for the occasion. A great American flag occupied a prominent place, beside the flag of Ireland, and everything was in keeping with the sentiment expressed, that the cause of the Irish race in Ireland was in common with the great struggle for liberty fought in this country, and which was won.

ABEAR'S SERIOUS ACCIDENT

Former Brainardite Walks Out of a Second Story Window at Kelliher and Breaks Both Legs.

The Bemidji Pioneer contains the following account of the serious accident that befell a former resident of this city:

Fred Abear, a barber at Kelliher, was brought to Bemidji this morning suffering with two broken legs, the result of a very peculiar accident.

Abear conducts a tonsorial establishment in the up line town and rooms at the Hobson rooming house on Main street. Wednesday night when he was through work he went to bed at his room. He immediately fell into a deep sleep from which he was awakened by finding himself lying helpless on the sidewalk just below the window of his room. He attempted to arise but found that both his legs were broken and he cried out for assistance, which arrived in a short time and the injured man was taken to his room and cared for.

Abear has been troubled with somnambulism for several years past and made frequent nocturnal excursions while dreaming. He has always escaped injury, however, up to Wednesday night.

The window from which he leaped is about 20 feet from the sidewalk, and when the man jumped he lit squarely on both feet, one of which was broken just below the knee and the other fractured above the ankle. He says that he had no idea of what he was doing when he jumped and declares that he does not even know what was the subject of his dream.

The man's injuries were cared for at St. Anthony's hospital today and is resting as easily as could be expected under the circumstances.

The Critical Periods In A Woman's Life

Are When the Change Comes From Childhood to Womanhood and Later When the Organs of the Pelvic Region Cease Their Work.

When the child changes from girlhood to womanhood and again later in life when the organs of the pelvic region cease their work, there is a strain thrown upon the nervous system, that requires outside aid that there may be supplied a proper amount of additional strength and resistive power. This Dr. A. W. Chase's Nerve Pills do to certainty by their ability to supply to the nervous system and the organs affected, an amount of nerve strength and energy that enables them to accommodate themselves rapidly and easily to the changes taking place.

Mrs. Julia Rowland, of No. 264 Pearl St., Buffalo, writes:

"Both myself and daughter, aged 17, are deeply indebted to Dr. A. W. Chase and his Nerve Pills. They certainly are a grand tonic to the nerves. I used them about a year ago, to give me the strength and vitality to go through the ordeal that usually comes to woman at change of life, and found all the nervousness, crying spells and weakness disappear in a hurry. This led me to give them to my daughter about the time she began to have the endless trouble some girls do in early life, and the medicine acted equally as well with her. She grew strong and steady—the color became good—the languor and lassitude disappeared and she was able to go about her school duties as usual. I consider the Dr. A. W. Chase Nerve Pills unequalled as a nerve and general tonic in such cases and gladly recommend them to others who suffer in a similar manner." 50c a box at dealers or Dr. A. W. WILLIAM LAYMIE WAS DEMENTED

Picked Up On Streets by Captain Hurley and Locked Up Saturday Night

BROTHER ARRIVES FROM SOUTH

And Unfortunate Man is Sent to a Local Hospital for Treatment

Captain Hurley on Saturday evening picked up a man by the name of William Laymie, who appeared to be in a demented condition, and locked him up. The man appeared to have been drinking and was trying to break into a residence when he was detected first.

Yesterday Chief Simmons received a telephone message from Wabasha asking him if he would not go over to Deerwood and try and locate a man by the name of Laymie, who had been reported to his folks at Wabasha as being slightly unbalanced. The telephone message was from the man's brother. The chief thought perhaps that the man who was locked up was the man that was wanted and upon further inquiry found that he was right.

The brother of the unfortunate man arrived in the city this morning. He decided that he would take his brother to a local hospital for a time for treatment and he was removed from the city jail shortly before noon.

Laymie had been working near Deerwood, but became slightly demented and wandered about aimlessly, finally landing in Brainerd. The man comes of a good family, but the drink habit got the upper hand on him and it affected his mental capacity.

Panic Among Actors Caused by Fire in Adjoining Building.

Chicago, March 6.—Ten minutes after the patrons of the matinee performance at Hyde & Behman's music hall had been dismissed smoke from a fire in an adjoining building penetrated the stage of the playhouse and caused a panic among the actors and actresses who were still in their dressing rooms. The music hall is the old Iroquois theater under a new name, and the clanging of fire bells and the smell of smoke were such vivid reminders of the catastrophe of 1903, when nearly 600 persons lost their lives in a fire that partially destroyed the place, that the attaches of the theater became frightened and made a rush for the exits of the stage. All escaped without injury and went back to the theater when they found it was not menaced by the flames.

MUSIC AND DRAMA.

"THE CRISIS."

From present indications the engagement of Nannette Comstock in Winston Churchill's dramatization of his successful novel, "The Crisis," which is now appearing in the twin cities, at the Brainerd opera house on March 16, bids fair to be one of the most important events of the local theatrical season, both from an artistic and social viewpoint. Already there have been several inquiries for seats for the night of March 16 and it is now quite evident that the theatre will be well filled. This is nearly always the case during Miss Comstock's engagements. This clever young star makes a forceful and direct appeal to the finer sensibilities, while the play is one which attracts thinkers of all ages and classes. Unlike most plays built upon a serious topic "The Crisis" is developed entirely along comedy lines. The author's touch in constructing his play was as light and dainty as that of the star who will interpret the leading character.

We Offer \$1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The Critical Periods In A Woman's Life

Are When the Change Comes From Childhood to Womanhood and Later When the Organs of the Pelvic Region Cease Their Work.

When the child changes from girlhood to womanhood and again later in life when the organs of the pelvic region cease their work, there is a strain thrown upon the nervous system, that requires outside aid that there may be supplied a proper amount of additional strength and restive power. This Dr. A. W. Chase's Nerve Pills do to a certainty by their ability to supply to the nervous system and the organs affected, an amount of nerve strength and energy that enables them to accommodate themselves rapidly and easily to the changes taking place.

Mrs. Julia Rowland, of No. 264 Pearl St., Buffalo, writes:

"Both myself and daughter, aged 17, are deeply indebted to Dr. A. W. Chase and his Nerve Pills. They certainly are a grand tonic to the nerves. I used them about a year ago, to give me the strength and vitality to go through the ordeal that usually comes to woman at change of life, and found all the nervousness, crying spells and weakness disappear in a hurry. This led me to give them to my daughter about the time she began to have the endless trouble some girls do in early life, and the medicine acted equally as well with her. She grew strong and steady—the color became good—the languor and lassitude disappeared and she was able to go about her school duties as usual. I consider the Dr. A. W. Chase Nerve Pills unequalled as a nerve and general tonic in such cases and gladly recommend them to others who suffer in a similar manner." 50c a box at dealers or Dr. A. W. BROTHER ARRIVES FROM SOUTH

And Unfortunate Man is Sent to a Local Hospital for Treatment

Captain Hurley on Saturday evening picked up a man by the name of William Laymie, who appeared to be in a demented condition, and locked him up. The man appeared to have been drinking and was trying to break into a residence when he was detected first.

Yesterday Chief Simmons received a telephone message from Wabasha asking him if he would not go over to Deerwood and try and locate a man by the name of Laymie, who had been reported to his folks at Wabasha as being slightly unbalanced. The telephone message was from the man's brother. The chief thought perhaps that the man who was locked up was the man that was wanted and upon further inquiry found that he was right.

The brother of the unfortunate man arrived in the city this morning. He decided that he would take his brother to a local hospital for a time for treatment and he was removed from the city jail shortly before noon.

Laymie had been working near Deerwood, but became slightly demented and wandered about aimlessly, finally landing in Brainerd. The man comes of a good family, but the drink habit got the upper hand on him and it affected his mental capacity.

Chicago, March 6.—Ten minutes after the patrons of the matinee performance at Hyde & Behman's music hall had been dismissed smoke from a fire in an adjoining building penetrated the stage of the playhouse and caused a panic among the actors and actresses who were still in their dressing rooms. The music hall is the old Iroquois theater under a new name, and the clanging of fire bells and the smell of smoke were such vivid reminders of the catastrophe of 1903, when nearly 600 persons lost their lives in a fire that partially destroyed the place, that the attaches of the theater became frightened and made a rush for the exits of the stage. All escaped without injury and went back to the theater when they found it was not menaced by the flames.

"THE CRISIS."

From present indications the engagement of Nannette Comstock in Winston Churchill's dramatization of his successful novel, "The Crisis," which is now appearing in the twin cities, at the Brainerd opera house on March 16, bids fair to be one of the most important events of the local theatrical season, both from an artistic and social viewpoint. Already there have been several inquiries for seats for the night of March 16 and it is now quite evident that the theatre will be well filled. This is nearly always the case during Miss Comstock's engagements. This clever young star makes a forceful and direct appeal to the finer sensibilities, while the play is one which attracts thinkers of all ages and classes. Unlike most plays built upon a serious topic "The Crisis" is developed entirely along comedy lines, the author's touch in constructing his play was as light and dainty as that of the star who will interpret the leading character.

ST. PATRICK'S DAY ENTERTAINMENT.

For many years the annual entertainment given on St. Patrick's Day by Rev. D. W. Lynch has been looked forward to with much interest by the people of Brainerd. Father Lynch has always

had the reputation of providing something out of the ordinary for this day and this year will be no exception.

There will be a program of addresses, songs and instrumental music, which will be one of the best ever heard in Brainerd. The best local talent has been secured and in connection therewith the Hon. J. A. Peterson, of Minneapolis, has been secured to deliver the principal address. Mr. Peterson made a great reputation last fall when he challenged the Hon. John Lind to a debate on the political issues of the campaign. He made a lasting reputation at that time as a debator and held his own, winning the admiration of a large number of friends. He is a public speaker with but few equals in the northwest.

We Offer \$1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity, a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are

ALL HONOR TO IRISH PATRIOT

Local Division, A. O. H., Pays Tribute to Robert Emmett, the Irish Statesman

SOME ELOQUENT ADDRESSES

Columbian Hall was crowded on Event of Celebration of Emmett Anniversary

To the student of historic research no better opportunity could be offered to learn something of the life of one of the greatest characters in the history of Ireland and her great struggle for freedom than on an event like that of Saturday night when some three hundred patriotic Irish folk gathered in Columbian hall to do honor to Robert Emmett, statesman, patriot and martyr, the day being the anniversary of the birth of this conspicuous figure in the history of Ireland.

Under the auspices of Division No. 1, A. O. H., an excellent program had been prepared in memory of Emmett and especially enthusiastically received were the addresses given during the evening by President James J. Nolan, Mayor O'Brien, Rev. D. W. Lynch, Editor Coughlan, of Perham and J. J. Regan, state president of the A. O. H. The address given by the latter was especially enjoyed, containing as it did some of the minutest facts relative to the life of Robert Emmett and the status of the struggle of suffering Ireland at the period when this young man devoted every energy and finally gave up his life blood for the sake of his country.

The speaker waxed eloquent under the fire of patriotism which aroused everyone present to a sense of duty toward a suffering people. President Nolan, of the local division, presided over the deliberations of the evening, and paid a glowing tribute in his opening remarks to the man whose memory was being commemorated.

The first musical number on the program was a song by Miss Kathleen Graham, "Katie from Dublin," which she sang with fervor and feeling. She was given a hearty encore. Thos. Cawley, Jr., was heard in a violin solo, "An Irish Rhapsody" and he was also recalled for another number. Mrs. D. M. Clark recited in a very able manner, "The Dawn on the Hills of Ireland."

Mayor O'Brien was called upon and made a few remarks in his usual unique manner. He thought the order of Hibernians a worthy institution and dwelt on the importance of all the members to live up to its teachings, for in so doing he claimed all men would become better citizens. He also paid a tribute to the ladies' auxiliary. The Hibernian order, he claimed, had done more for the Irish people than any other in the United States.

An especially beautiful tribute paid to Robert Emmett was the one by Rev. D. W. Lynch, the beloved pastor of St. Francis' church. He argued that it was but just and meet that the Irish race should pay tribute to a man who laid down his life for liberty. By their presence at such a gathering the people showed that they appreciated the sacrifice made, and although Ireland claimed the proud distinction of being the birthplace of this great statesman his memory is revered not alone by the people of Ireland but by the whole world, by men everywhere who love liberty and the pursuit of happiness.

Joseph Murphy added to the enthusiasm and patriotic spirit of the occasion by singing, "Come Back to Erin" and he was obliged to respond to an encore.

Editor Coughlan, of Perham, though not down on the program, was called upon for a few remarks, which were well received. He said that he did not claim to be a public speaker but anyone with a particle of Irish blood in his veins could not fail to respond to a call for a few remarks on a theme which is near and dear to the hearts of all his countrymen.

P. A. Egan recited two patriotic selections and was given vociferous applause.

Prof. William Graham and Z. E. Wood gave a cornet duet, "A Pretty Maid Milking Her Cow" and they were heard to good advantage.

President J. J. Regan, of the state organization was then called upon, and his

effort was one of the best ever heard in this city. Full of enthusiasm, and being well equipped with a thorough knowledge of his subject, he gave an address which stirred those present with sympathy. He stated that it was but just and right for any man to love his fatherland, and the men who are interested in the welfare of their native land are classed among the best citizens of this great and glorious liberty loving country, the United States of America.

The speaker dwelt on the life of the young man, Robert Emmett, his career in Ireland during the great crusade for liberty, his family ties and relations, which were among the most pathetic sentiments expressed, and his ultimate sentence and execution.

The program closed with a song, "Margery," by the young ladies' sextette.

The hall had been appropriately decorated for the occasion. A great American flag occupied a prominent place, beside the flag of Ireland, and everything was in keeping with the sentiment expressed, that the cause of the Irish race in Ireland was in common with the great struggle for liberty fought in this country and which was won.

A BEAR'S SERIOUS ACCIDENT

Former Brainerdite Walks Out of a Second Story Window at Kelliher and Breaks Both Legs.

The Bemidji Pioneer contains the following account of the serious accident that befell a former resident of this city:

Fred Abear, a barber at Kelliher, was brought to Bemidji this morning suffering with two broken legs, the result of a very peculiar accident.

Abear conducts a tonsorial establishment in the up line town and rooms at the Hobson rooming house on Main street. Wednesday night when he was through work he went to bed at his room. He immediately fell into a deep sleep from which he was awakened by finding himself lying helpless on the sidewalk just below the window of his room. He attempted to arise but found that both his legs were broken and he cried out for assistance, which arrived in a short time and the injured man was taken to his room and cared for.

Abear has been troubled with somnambulism for several years past and made frequent nocturnal excursions while dreaming. He has always escaped injury, however, up to Wednesday night.

The window from which he leaped is about 20 feet from the sidewalk, and when the man jumped he lit squarely on both feet, one of which was broken just below the knee and the other fractured above the ankle. He says that he had no idea of what he was doing when he jumped and declares that he does not even know what was the subject of his dream.

The man's injuries were cared for at St. Anthony's hospital today and is resting as easily as could be expected under the circumstances.

JOHN S. LONG.

Dr. S. Weir Mitchell, the Great Neurologist, Warns Americans Who Neglect Their Nerves.

"In busy centers the number of deaths due to nervous causes has increased twenty per cent in forty years. One-fourth of the deaths in cities to-day are from nervous diseases."—Dr. S. Weir Mitchell.

The clean, rich nerve-force that was behind the health and happiness of thousands upon thousands is literally burning itself up like the dry wick of an empty lamp. It is the "Strenuous Life," with a vengeance.

Can men who go to their work in the morning tired and with lax spirits give to their own affairs the electric touch of confidence and power upon which success depends?

Can mothers worn out and nervous, plodding dully or ill-tempered through the routine of homekeeping, bring into the family life that precious spirit of hopefulness and happiness without which the word "home" seems a mockery?

When you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel discouraged—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried.

These are all signs that your nerve forces are burning low.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new **Nerve Force**. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The **Nerve Force** does this all, and Paine's Celery Compound makes the **Nerve Force**.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

Without **Nerve Force** there can be no health at all—no success—no joy in living.

John S. Long's case is simply one of thousands upon thousands. An average case and an object lesson to the average person.

For nervousness and stomach troubles
Paine's Celery Compound is the medicine. I was almost a physical wreck when I commenced to use Paine's Celery Compound, and now I am as healthy as any man in the world, and I owe it all to Paine's Celery Compound. The first bottle I took helped me wonderfully, and by the time the second was used I was a well man, and I can cheerfully recommend it to any one as being the best medicine I have ever used."

—John S. Long, Ballard, Wash.

Try Paine's Celery Compound to-day. It braces you up at once.

Take two days' treatment. See how much better you feel. See how much more easily the trials roll away.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University. All reputable druggists recommend and sell Paine's Celery Compound.

Cleveland, March 6.—Nathan Loeser, trustee of the Chadwick assets, and County Prosecutor Harvey R. Keeler called by appointment upon Andrew Carnegie at the home of Sylvester T. Everett in this city during the day. Mr. Loeser brought with him the famous \$5,000,000 note and the equally famous note trust agreement. The officials obtained specimens of Mr. Carnegie's handwriting for the purpose of comparing it with the writing on the paper which Mrs. Chadwick used as security for many of her transactions. Mr. Carnegie was very much amused when he saw the document bearing his name. The dissimilarity between the signature which Mr. Carnegie wrote for Mr. Keeler and the signature which was reputed to be his on the bank paper was marked.

A second purpose of the visit to Mr. Carnegie was to learn if Mr. Carnegie could be dispensed from coming for the second trial which Mrs. Chadwick and her husband will have to undergo upon state indictments.

Mr. Carnegie said that he was willing to come to Cleveland in the interest of justice as often as necessary; that he regarded it as his duty as a citizen to do so, and that every citizen should aid in the punishment of crime, wherever found.

Mr. Carnegie said that he would be in court during the morning to be sworn as a witness in the government's case.

Mr. Carnegie, in the course of his talk with Prosecutor Keeler and Trustee Loeser, repeated his former statements that he had never met Mrs. Chadwick and had never heard of her until the crash in the woman's financial affairs came.

MRS. CHADWICK HOPEFUL.

Cleveland Woman Believes Trial Will End in Her Favor.

Cleveland, March 6.—In a statement made Sunday evening, Mrs. Cassie L. Chadwick, whose trial upon a federal indictment charging her with conspiracy against the United States banking laws begins during the day, professes to have confidence that the outcome of the trial will be in her favor. She said: "I have great hopes for the outcome. I am worried, but not in the sense you would imagine. This is a big event for me, and naturally I am all concerned and anxious, not for the result, mind you, but more because it is a great epoch in my life. I will be nervous, but that's not owing to the trial itself, but on account of the large number of people who will be there looking at me. That unnerves me. I can hardly stand it."

"Mr. Carnegie's presence in the city is very good news to me."

FATAL TRAIN WRECK

TWO PERSONS KILLED AND SIX
OTHERS INJURED AT BEAR
MOUTH, MONT.

Missoula, Mont., March 6.—Two persons are dead and six injured as the result of a collision of a freight train and the westbound "Twin Cities" express on the Northern Pacific at Bear Mouth during the afternoon.

The dead are: W. F. Wilcox of Helena, division chief clerk of the railway mail service, on tour of inspection; J. L. Billman of Helena, fireman of the express.

The injured are: A. W. Smith, Missoula, freight fireman, may die; Engineer Joel J. James, Missoula, serious; Engineer Thomas L. Sheehan, Missoula, serious; Mail Clerk Robert L. Stewart, Helena, badly injured; Mrs. T. H. Ferrier, Ellensburg, Wash., bruised; Marie Taylor of the "Virgins," nose broken.

The dead and injured were brought to this city on a relief train. The injured are being cared for in the company hospital.

The express was thirty minutes behind time, and the freight had orders to wait at Bear Mouth siding.

Engineer Sheehan misunderstood his orders and proceeded east. As the freight rounded the curve east of Bear Mouth it crashed head-on into the express. A high bank had shut off the view of both engineers and no attempt had been made to slacken speed. Both engines were thrown from the track and the mail and express cars telescoped, but the passenger coaches came to a dead stop and remained on the track. Traffic has been resumed.

One Killed and Two Injured.

Defiance, O., March 6.—Fireman Beadle was instantly killed and Fireman Gogley and Brakeman Carr were probably fatally injured in a head-on collision between two freight trains on the Baltimore and Ohio. About seventy-eight cars were wrecked.

Kills His Divorced Wife.

Des Moines, Ia., March 6.—Fred B. Hoffman, a restaurant keeper, at night shot dead his divorced wife and then turned the weapon on himself, inflicting a fatal wound. Jealousy is understood to be the motive for the crime.

EXTRA SESSION OF SENATE.

Will Receive Nominations of Cabinet Officers From the President.

Washington, March 6.—The extra session of the senate which adjourned Saturday will meet during the day. At that time the expectation is that the president will send to the senate a number of nominations, the most important of which will be the nominations of his cabinet. It has generally been understood that with one exception, that of Postmaster General Wynne, these nominations will be the names of the present incumbents. For the place to be vacated by Mr. Wynne, the president will nominate George B. Cortelyou, formerly secretary of the department of commerce and labor. Mr. Wynne will be nominated for consul general at London, now filled by H. Clay Evans.

Another matter which will engage the attention of the senate during the extra session will be the consideration of the Santo Domingo treaty, which comes over from the regular session of the last congress. The president has prepared a message to the senate urging the necessity of the ratification of that treaty and unless he has changed his mind the message will go to the senate during the coming week. The length of the extra session is problematical and it is thought will depend almost entirely upon the time required to dispose of the Santo Domingo treaty.

FROM HEAVY STRAIN

PRESIDENT ROOSEVELT RESTING
AND RECUPERATING IN THE
WHITE HOUSE.

Washington, March 6.—President Roosevelt passed the first Sunday after his inauguration quietly at the White House. Surrounded by the members of his family and his house guests, he spent the day in recuperation from the fatigue incident to the heavy mental and physical strain which he underwent during the inaugural ceremonies, except for a horseback ride through the suburbs, during the afternoon. He was alone and took his mount at the outskirts of the city.

It was expected that the president would attend religious services during the day and in anticipation of his leaving the White House thousands of people gathered in and about the White House grounds as early as 9:30 o'clock. No restrictions were placed on entrance to the grounds and throughout the day unnumbered thousands of people wandered about the historic executive mansion. They swarmed about the main entrance, peered through the closed glass doors and windows, in hundreds of instances pressing their faces against the glass of the doors and windows in order that they might have a better view of the interior. The White House, of course, was closed to all visitors except the personal friends and relatives of the Roosevelt family.

RECEIVED INFORMAL CALLS.

During the day the president and Mrs. Roosevelt received informal calls from many of such friends, and at both luncheon and dinner, large companies were entertained.

It became evident early in the day that if the president should leave the White House to attend services at his church he would be surrounded both at the church and in going to and from the services by an almost uncontrollable crowd of curiosity seekers and admirers. He was advised strongly not to leave the White House under the circumstances and finally yielded to the admonition of his friends.

The conduct of the police in the case is inexplicable. In some quarters the suggestion is made that those interested in the estate of Mrs. Stanford are having great influence in the management of the local inquiry on account of a possible will contest raising a question of sanity.

Most rigid inquiries are being made regarding every detail of Mrs. Stanford's life while here. The police continue every effort to preserve secrecy concerning every incident connected with the case.

RIGID INVESTIGATION.

Instituted by Commissioner Garfield
Into Oil Industry.

Washington, March 6.—Commissioner James R. Garfield of the bureau of corporations has instituted a rigid investigation of the operations of the oil industry in Kansas and contiguous states. In response to a resolution of the house of representatives introduced by Representative Campbell of Kansas the investigation of the oil industry will be carried on as rapidly as is consistent with thoroughness. The report of Commissioner Garfield will be made directly to President Roosevelt. Whether it will be made public will lie within the discretion of the chief executive. In the event of facts developing it may be turned over to the attorney general for such action as the department of justice determines.

Commissioner Garfield said nothing would be left undone by his department to develop the facts regarding the oil industry in Kansas as well as in other states. It is not within the province of Commissioner Garfield to confine the investigation to Kansas. It will not be circumscribed by state or geographical lines. It is the intention of the department to make the investigation as exhaustive as the resolution of Representative Campbell directs, the purpose being to develop the operations of the oil trust.

The method of procedure will be similar to the inquiry into the operations of the beef trust.

The oil trust maintains that it has conducted its business not only in accordance with the law but in perfect regard to recognized business principles and is perfectly willing to have the government make a rigid inquiry into its methods of doing business.

CHEMISTS COMPLETE ANALYSIS.

But No Statement is Given Out in the Stanford Case.

Honolulu, March 6.—The chemists who were engaged in making an analysis of the contents of the stomach of Mrs. Stanford have completed their task and communicated the result to High Sheriff Henry.

Sheriff Henry said he did not know when to expect the report of the chemists. He has refused to give his consent to a statement by the chemists and consequently they decline to say anything for publication other than that they have completed their work.

The conduct of the police in the case is inexplicable. In some quarters the suggestion is made that those interested in the estate of Mrs. Stanford are having great influence in the management of the local inquiry on account of a possible will contest.

Most rigid inquiries are being made regarding every detail of Mrs. Stanford's life while here. The police continue every effort to preserve secrecy concerning every incident connected with the case.

JOHN S. LONG.

Dr. S. Weir Mitchell, the Great Neurologist, Warns Americans Who Neglect Their Nerves.

"In busy centers the number of deaths due to nervous causes has increased twenty per cent in forty years. One-fourth of the deaths in cities to-day are from nervous diseases."—Dr. S. Weir Mitchell.

The clean, rich nerve-force that was behind the health and happiness of thousands upon thousands is literally burning itself up like the dry wick of an empty lamp. It is the "Strenuous Life," with a vengeance.

Can men who go to their work in the morning tired and with lax spirits give to their own affairs the electric touch of confidence and power upon which success depends?

Can mothers worn out and nervous, plodding dully or ill-tempered through the routine of homekeeping, bring into the family life that precious spirit of hopefulness and happiness without which the word "home" seems a mockery?

When you feel exhausted—when you grow tired sooner than you should—when you lose patience with the irritating cares of daily life—when you feel discouraged—when you feel that your hopes and ambitions are not as high as they used to be—when you spend a sleepless night—when you get up almost as weary as when you went to bed—when you are worried.

These are all signs that your nerve forces are burning low.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly, tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

Without Nerve Force there can be no health at all—no success—no joy in living.

John S. Long's case is simply one of thousands upon thousands. An average case and an object lesson to the average person.

"For nervousness and stomach troubles Paine's Celery Compound is the medicine. I was almost a physical wreck when I commenced to use Paine's Celery Compound, and now I am as healthy as any man in the world, and I owe it all to Paine's Celery Compound. The first bottle I took helped me wonderfully, and by the time the second was used I was a well man, and I can cheerfully recommend it to any one as being the best medicine I have ever used."

—John S. Long, Ballard, Wash.

Try Paine's Celery Compound to-day. It braces you up at once.

Take two days' treatment. See how much better you feel. See how much more easily the trials roll away.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University. All reputable druggists recommend and sell Paine's Celery Compound.

Vice President and Mrs. Fairbanks attended services in the morning at their usual place of worship, the Metropolitan Methodist Episcopal church at the corner of C street and John Marshall place.

While thousands of visitors to the inaugural ceremonies left the city Saturday night and early Sunday, other thousands remained to view the historic sights of the national capitol over Sunday. It was remarked by old Washingtonians that this was the first inauguration period for thirty years when the weather had been so uniformly pleasant for so many successive days and comments upon "Roosevelt's luck" and "Roosevelt's destiny" became trite in repetition among the vast crowds which thronged the capital.

HIS SIGNATURE PROVES TO BE

CHADWICK PAPER.

Cleveland, March 6.—Nathan Loeser, trustee of the Chadwick assets, and County Prosecutor Harvey R. Keeler called by appointment upon Andrew Carnegie at the home of Sylvester T. Everett in this city during the day. Mr. Loeser brought with him the famous \$5,000,000 note and the equally famous note trust agreement. The officials obtained specimens of Mr. Carnegie's handwriting for the purpose of comparing it with the writing on the paper which Mrs. Chadwick used as security for many of her transactions. Mr. Carnegie was very much amused when he saw the document bearing his name. The dissimilarity between the signature which Mr. Carnegie wrote for Mr. Keeler and the signature which was reputed to be his on the bank paper was marked.

A second purpose of the visit to Mr. Carnegie was to learn if Mr. Carnegie could be dispensed from coming for the second trial which Mrs. Chadwick and her husband will have to undergo upon state indictments.

Mr. Carnegie said that he was willing to come to Cleveland in the interest of justice as often as necessary; that he regarded it as his duty as a citizen to do so, and that every citizen should aid in the punishment of crime, wherever found.

Mr. Carnegie said that he would be in court during the morning to be sworn as a witness in the government's case.

Mr. Carnegie, in the course of his talk with Prosecutor Keeler and Trustee Loeser, repeated his former statements that he had never met Mrs. Chadwick and had never heard of her until the crash in the woman's financial affairs came.

Cleveland Woman Believes Trial Will End in Her Favor.

Cleveland, March 6.—In a statement made Sunday evening, Mrs. Cassie L. Chadwick, whose trial upon a federal indictment charging her with conspiracy against the United States banking laws begins during the day, professes to have confidence that the outcome of the trial will be in her favor. She said: "I have great hopes for the outcome. I am worried, but not in the sense you would imagine. This is a big event for me, and naturally I am all concerned and anxious, not for the result, mind you, but more because it is a great epoch in my life. I will be nervous, but that's not owing to the trial itself, but on account of the large number of people who will be there looking at me. That unnerves me. I can hardly stand it.

"Mr. Carnegie's presence in the city is very good news to me."

FATAL TRAIN WRECK

TWO PERSONS KILLED AND SIX OTHERS INJURED AT BEAR MOUTH, MONT.

Missoula, Mont., March 6.—Two persons are dead and six injured as the result of a collision of a freight train and the westbound "Twin Cities" express on the Northern Pacific at Bear Mouth during the afternoon.

The dead are: W. F. Wilcox of Helena, division chief clerk of the railway mail service, on tour of inspection; J. L. Billman of Helena, fireman of the express.

The injured are: A. W. Smith, Missoula, freight fireman, may die; Engineer Joel J. James, Missoula, serious; Engineer Thomas L. Sheehan, Missoula, serious; Mail Clerk Robert L. Stewart, Helena, badly injured; Mrs. T. H. Ferrier, Ellensburg, Wash., bruised; Marie Taylor of the "Virgilians," nose broken.

The dead and injured were brought to this city on a relief train. The injured are being cared for in the company hospital.

The express was thirty minutes behind time, and the freight had orders to wait at Bear Mouth siding.

Engineer Sheehan misunderstood his orders and proceeded east. As the freight rounded the curve east of Bear Mouth it crashed head-on into the express. A high bank had shut off the view of both engineers and no attempt had been made to slacken speed. Both engines were thrown from the track and the mail and express cars telescoped, but the passenger coaches came to a dead stop and remained on the track. Traffic has been resumed.

One Killed and Two Injured.

Defiance, O., March 6.—Fireman Beadle was instantly killed and Fireman Gogley and Brakeman Carr were probably fatally injured in a head-on collision between two freight trains on the Baltimore and Ohio. About seventy-eight cars were wrecked.

EXTRA SESSION OF SENATE.

Will Receive Nominations of Cabinet Officers From the President.

Washington, March 6.—The extra session of the senate which adjourned Saturday will meet during the day. At that time the expectation is that the president will send to the senate a number of nominations, the most important of which will be the nominations of his cabinet. It has generally been understood that with one exception, that of Postmaster General Wynne, these nominations will be the names of the present incumbents. For the place to be vacated by Mr. Wynne, the president will nominate George B. Cortelyou, formerly secretary of the department of commerce and labor. Mr. Wynne will be nominated for consul general at London, now filled by H. Clay Evans.

Another matter which will engage the attention of the senate during the extra session will be the consideration of the Santo Domingo treaty, which comes over from the regular session of the last congress. The president has prepared a message to the senate urging the necessity of the ratification of that treaty and unless he has changed his mind the message will go to the senate during the coming week. The length of the extra session is problematical and it is thought will depend almost entirely upon the time required to dispose of the Santo Domingo treaty.

FROM HEAVY STRAIN

PRESIDENT ROOSEVELT RESTING AND RECUPERATING IN THE WHITE HOUSE.

Washington, March 6.—President Roosevelt passed the first Sunday after his inauguration quietly at the White House. Surrounded by the members of his family and his house guests, he spent the day in recuperation from the fatigue incident to the heavy mental and physical strain which he underwent during the inaugural ceremonies, except for a horseback ride through the suburbs, during the afternoon. He was alone and took his mount at the outskirts of the city.

It was expected that the president would attend religious services during the day and in anticipation of his leaving the White House thousands of people gathered in and about the White House grounds as early as 9:30 o'clock.

No restrictions were placed on entrance to the grounds and throughout the day unnumbered thousands of people wandered about the historic executive mansion. They swarmed about the main entrance, peered through the closed glass doors and windows, in hundreds of instances pressing their faces against the glass of the doors and windows in order that they might have a better view of the interior. The White House, of course, was closed to all visitors except the personal friends and relatives of the Roosevelt family.

Received Informal Calls.

During the day the president and Mrs. Roosevelt received informal calls from many of such friends, and at both luncheon and dinner, large companies were entertained.

It became evident early in the day that if the president should leave the White House to attend services at his church he would be surrounded both at the church and in going to and from the services by an almost uncontrollable crowd of curiosity seekers and admirers. He was advised strongly not to leave the White House under the circumstances and finally yielded to the admonition of his friends.

The conduct of the police in the case is inexplicable. In some quarters the suggestion is made that those interested in the estate of Mrs. Stanford are having great influence in the management of the local inquiry on account of a possible will contest raising a question of sanity.

Most rigid inquiries are being made regarding every detail of Mrs. Stanford's life while here. The police continue every effort to preserve secrecy concerning every incident connected with the case.

Vice President and Mrs. Fairbanks attended services in the morning at their usual place of worship, the Metropolitan Methodist Episcopal church at the corner of C street and John Marshall place.

While thousands of visitors to the

inaugural ceremonies left the city Saturday night and early Sunday, other thousands remained to view the historic sights of the national capitol over Sunday. It was remarked by old Washingtonians that this was the first inauguration period for thirty years when the weather had been so uniformly pleasant for so many successive days and comments upon "Roosevelt's luck" and "Roosevelt's destiny" became trite in repetition among the vast crowds which thronged the capital.

The injured are: A. W. Smith, Missoula, freight fireman, may die; Engineer Joel J. James, Missoula, serious; Engineer Thomas L. Sheehan, Missoula, serious; Mail Clerk Robert L. Stewart, Helena, badly injured; Mrs. T. H. Ferrier, Ellensburg, Wash., bruised; Marie Taylor of the "Virgilians," nose broken.

The dead and injured were brought to this city on a relief train. The injured are being cared for in the company hospital.

The express was thirty minutes behind time, and the freight had orders to wait at Bear Mouth siding.

A high bank had shut off the view of both engineers and no attempt had been made to slacken speed. Both engines were thrown from the track and the mail and express cars telescoped, but the passenger coaches came to a dead stop and remained on the track. Traffic has been resumed.

REPUBLICAN EDITORS.

National Association Will Hold Convention in Washington.

Rochester, N. Y., March 6.—The programme of the Republican National Editorial convention to be held at the New Willard, Washington, D. C., on Wednesday, March 8, has just been announced by A. O. Bunnell, editor of the Danville, N. Y., Advertiser, secretary of the association, and it includes addresses by Vice President Fairbanks and Senator Depew, a paper by Dr. A. E. Winslow of Boston, one by A. S. Cappeller of the Mansfield, O., News, and one by Colonel Lafayette Young of the Des Moines, Ia., Capital.

More than thirty state Republican editorial associations will be represented at the gathering. The editors will be received by President Roosevelt at the White House at 2:30 p. m. and in the evening will be the guests of Vice President and Mrs. Fairbanks.

Kills His Divorced Wife.

Des Moines, Ia., March 6.—Fred B. Hoffman, a restaurant keeper, at night shot dead his divorced wife and then turned the weapon on himself, inflicting a fatal wound. Jealousy is understood to be the motive for the crime.

RIGID INVESTIGATION.

Instituted by Commissioner Garfield Into Oil Industry.

Washington, March 6.—Commissioner James R. Garfield of the bureau of corporations has instituted a rigid investigation of the operations of the oil industry in Kansas and contiguous states. In response to a resolution of the house of representatives introduced by Representative Campbell of Kansas the investigation of the oil industry will be carried on as rapidly as is consistent with thoroughness. The report of Commissioner Garfield will be made directly to President Roosevelt. Whether it will be made public will lie within the discretion of the chief executive. In the event of facts developing it may be turned over to the attorney general for such action as the department of justice determines.

Commissioner Garfield said nothing would be left undone by his department to develop the facts regarding the oil industry in Kansas as well as in other states. It is not within the province of Commissioner Garfield to confine the investigation to Kansas. It will not be circumscribed by state or geographical lines. It is the intention of the department to make the investigation as exhaustive as the resolution of Representative Campbell directs, the purpose being to develop the operations of the oil trust.

The method of procedure will be similar to the inquiry into the operations of the beef trust.

The oil trust maintains that it has conducted its business not only in accordance with the law but in perfect regard to recognized business principles and is perfectly willing to have the government make a rigid inquiry into its methods of doing business.

CHEMISTS COMPLETE ANALYSIS.

But No Statement is Given Out in the Stanford Case.

Honolulu, March 6.—The chemists who were engaged in making an analysis of the contents of the stomach of Mrs. Stanford have completed their task and communicated the result to High Sheriff Henry.

Sheriff Henry said he did not know when to expect the report of the chemists. He has refused to give his consent to a statement by the chemists and consequently they decline to say anything for publication other than that they have completed their work.

The conduct of the police in the case is inexplicable. In some quarters the suggestion is made that those interested in the estate of Mrs. Stanford are having great influence in the management of the local inquiry on account of a possible will contest raising a question of sanity.

Most rigid inquiries are being made regarding every detail of Mrs. Stanford's life while here. The police continue every effort to preserve secrecy concerning every incident connected with the case.
